REICH water
solutions brochure

REICH
WATER SOLUTIONS

Holidays, infinitely simple. With easydriver.

Caravaning is booming – and is even better with **REICH!** So that the best time of year is how it should be: independent, free and simple. At our **innovation factory** we are endeavouring to create something new and exceptional every day – **for cutting edge caravaning at the very highest level.** To realise the dream of a perfect home on wheels we have developed, among others, the **easydriver infinity.** So put your feet up and position your caravan? No problem! Our most advanced manoeuvring device is faster, lighter and more mobile than ever before. And all this comes with a really impressive level of technical convenience. This thrusts you into new dimensions of freedom – because the future only begins where great things are accomplished.

easydriver. Simply free.

Simply unique:

easydriver corrosion protection. The **easydriver housing** is made from specially developed, **high-tech material.** Simply making sure that rust will not become a problem. **For lasting value.**

Simply powerful: manoeuvring with devices from *easydriver*

- > **manoeuvring device** for any use
- > award-winning **intuitively simple easydriver operation** (even if it is difficult or steep)
- > with app controller (included as standard with infinity), so also **controllable using a smartphone** (Apple iOS or Android)
- > in combination with MPP (Mobility Power Pack)
- > **lowest system weight with weight savings of up to 30 kg**
- > **radio remote control** with feedback of the device's status
- > best traction for **safety on inclines**, wet grass, mud and rough terrain
- > smallest turning circle
- > **softstart and softstop**
- > zero to minimal loss of ground clearance (depending upon the chassis type)
- > very easy to hitch
- > the special mixture of materials makes the easydriver lighter and protects against corrosion
- > **durable** thanks to zero-play engaging mechanism with high-performance sliding bearings
- > **automatic engaging and disengaging** (infinity and pro)
- > manual engaging and disengaging using a hand brace or cordless powertool (basic and active)

Single-axle caravans

easydriver infinity 2.5
easydriver pro 2.0
easydriver active 2.0 / 2.3
easydriver basic

Double-axle caravans

easydriver infinity 3.5
easydriver pro 2.8
easydriver active 2.8

Our manoeuvring revolution:

*With greater power to your destination
with the easydriver infinity*

Progress makes things easier, so caravanning with the **easydriver infinity** and its award-winning intuitively simple operation becomes easier than ever. Our newcomer among the manoeuvring devices overcomes every obstacle – and does it all while you put your feet up. Thanks to the clever interface with the **easydriver app**, your caravan can be easily manoeuvred over the last few metres onto its position.

- > **faster, more powerful** and **smarter**
- > a clear **enhancement** of the already prize-winning design
- > significantly better efficiency thanks to 30% more efficient **transmission** and optimized motor
- > the complete mechanics are **optimally sealed** and therefore protected against water ingress
- > **easier installation** in the shortest time
- > **maximum installation flexibility** thanks to the **tyre-free concept** (free positioning of the roller on the tyre) in conjunction with the **longest yet engaging** path of 70 mm
- > includes app controller as standard
- > provides you with **key operating data in real-time** (e.g. incline, battery status, etc.)
- > **genuinely lightweight** thanks to the special material mix

Smart accessories for your journey

Item number 527-0073M

Energy-Package M

for your single axle, consisting of:

- > battery REICH AGM 50
(dimensions: 195 x 170 x 165 mm,
weight: appr. 14,3 kg)
- > Charger c-Go 10A

Item number 527-0074L

Energy-Package L

for heavy single and double axles, consisting of:

- > battery REICH AGM 75
(dimensions: 260 x 200 x 170 mm,
weight: appr. 24,6 kg)
- > Charger c-Go 10A

Item number 526-2070

Charger c-Go 10A

- > fully automatic for AGM and GEL batteries –
can also be used without a battery as a power supply
- > no fan, TÜV, GS accreditation
- > charging acc. to IUoU (max. charge current 10 A, max. charge
voltage 14.4 V and 14.7 V, max. 14.8 V adjustable)
- > dimensions: 210 x 175 x 60 mm (L x W x H)
- > low weight: appr. 1.3 kg

Item number 526-2044

Charger U4

- > Adjustable charging current 0.8 A or 3.8 A
- > Adjustable charging voltage 14.4 V or 14.7 V
- > Loading/charging according to IUoU guidelines
- > Safe against reverse polarity and short circuit
- > Dust proof and water spray protection (IP 65)
- > Memory function – always uses last setting
- > dimensions: 61 x 170 x 40 mm (L x W x H)
- > low weight: appr. 0,6 kg

Easy Wheel double jockey-wheel

- > double support wheel conversion set
- > easy and safe manoeuvring on all surfaces
- > gentle on the manoeuvring drive and the caravan
chassis, to ensure that you can enjoy even more trips

Item number 537-1000

Caravan Weight Control

For a balanced tour

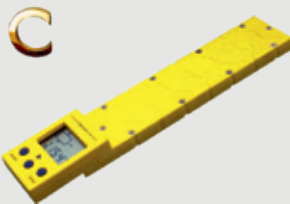

The **Caravan Weight Control** vehicle scale provides you with complete control over the total weight of your caravan and the partial loads on the individual wheels.

This simple-to-use and handy scale helps prevent over- and uneven loading to ensure safe towing. **Caravan Weight Control** works reliably and precisely and is equally suitable for cars, delivery vehicles, motorhomes, caravans and trailers.

Three measuring programs for:

1. Caravan with one axle and jockey wheel.
2. Caravan with tandem axles and jockey wheel.
3. Motorhome

CARAVANING
Sehr gut

- > Maximum load per wheel:
1.000 kg
- > Jockey wheel: 100 kg

✔ Item number 522-1500

- > Maximum load per wheel:
1.500 kg
- > Jockey wheel: 100 kg

✔ Item number 522-1600

TLC – Towbar Load Control

Digital load bearing scale

for single-axle caravan

✔ Item number 522-5000

for double-axle caravan

✔ Item number 522-5200

The digital noseweight gauge combines the highest possible precision with an appealing design. Intelligent electronics compensate for measurement deviations caused by raising the hitch – for a stable and safe driving experience.

- > digital readout in 1 kg steps
- > inclined, easy-to-read display
- > safe function without spring
- > maximum weight 109 kg (single axle)
- > supplied without batteries. (2 x AA required)

Your smart travel companion

All-in-one-app: easydriver myCaravaning

You're always bound to think, „Wow, I wish I could recommend this to the wider camping community!“ when you're discovering fascinating places with your caravan or motorhome. Well now you can! The easydriver App **myCaravaning** allows you to let everyone else in the **extensive caravaning network** participate and lets you share your experiences so that you rise to become a true camping super-professional. Along the way, the **valuable features offered by our vehicle and weather world** – that are, of course, contained in the app – will assist you. So what are you waiting for?

- > with **easydriver control**, **tyre pressure monitoring system**, **spirit level feature**, **14-day weather forecast** and **sun alignment feature**
- > **multiple vehicle profiles** can be selected, whether caravan or motorhome
- > Connection with the **electronic stabilisation system (ETS Plus)** to combat swaying
- > handy dealer and service partner search
- > access to the **caravaning network**, including digital map with location recommendations and comment function
- > statistics, rankings and an **active point collection system**
- > **free** for Apple iOS (iPhone or iPad) and Android
- > for control using the app an additional app controller is required (included as standard with infinity)
- > easydriver models before 2015 need a software update

✔ Required app controller for the easydriver pro, active and basic: Item number 227-2242

All-in-one: myCaravaning **app**
Combines the functions of the move and safetyre apps and much more!

Always be on the safe side:

easydriver safetyre

A quick check of the tyres before setting off on your caravanning adventure – and everything's OK? So off you go! But be careful: Flat-spotting and solar radiation can cause the tyres and carcasses to age – even if it's not apparent at first sight. If this goes unnoticed it can lead to a gradual loss of tyre pressure. To avoid this, or – in a worst case scenario – tyre blowout, **easydriver safetyre** ensures **maximum safety on tour**.

Our **monitoring system** has been specially developed for **caravans, motorhomes and trailers**. The clever interface with the **easydriver app** delivers all of the information you need directly to your tablet PC or smartphone, together with extra functions.

- > simply place the **sensors on the valve instead** of the normal caps
- > maximum tyre pressure 6.3 bar
- > content of packet: 2 sensors (if needed 2 or 3 sets can be used at the same time)
- > Display via the **free safetyre app or the all-in-one myCaravanning app**
- > **replaceable battery** (battery CR 1632)
- > direct connection **via Bluetooth** 2.4 GHz (signal amplifier not necessary)
- > operating voltage 3 V
- > range of temperature -20 °C to 85 °C
- > Weight appr. 9.5 g per sensor
- > anti-theft protection

Item number 534-1000

safetyre App

easydriver flashlight

The caravan hazard warning light system
for safe manoeuvring in the hours of darkness

With our new **easydriver flashlight** hazard warning light system your caravan will be seen in a new light. Daylight is fading to dusk, or perhaps darkness has already fallen, and you're manoeuvring your caravan on the road and turning into your driveway or garage entrance. Under such conditions an unlit caravan, which may also be positioned across the road, can be really difficult to see.

Bright flashing hazards or the additional **all round clearance lights** make parking or manoeuvring the caravan easily visible to other drivers in the hours of darkness.

- > **safer manoeuvring** thanks to **good visibility** in the hours of darkness
- > hazard warning lights and all-round clearance lights can be selected **individually or both together**
- > **easy to retrofit**
- > power comes from a leisure battery, manoeuvring device battery or a dedicated power supply
- > can also be used with manoeuvring devices fitted with a safety socket

Item number 527-3000

- Scope of supply:**
- > easydriver flashlight electronics box with 2 switches
 - > wiring harness
 - > 13 pin socket
 - > mounting materials
 - > operating instructions

Easy
to retrofit

MPP – Mobility-Power-Pack

Lighter. Not weaker:

Replaces battery and charger. With state-of-the-art lithium-ion technology (LiFePO₄). Sustainable and reliable.

- > appr. 2,000 charging cycles
- > significantly **longer service life** than conventional lead-acid batteries
- > combination of power supply (8.8 Ah) + charging electronics
- > 12 V nominal (14.4 max.), permanent load: 80 A
- > integrated safety function
- > charging using a mains cable, alternator, solar panel or fuel cell
- > Depending on the situation, can be used for 15–20 minutes
- > dimensions: 192 x 181 x 109 mm (L x W x H)
- > **very low weight: appr. 2 kg**

Safe for transport
according to
UN Standard

Technical details:

system weight for combination
of easydriver infinity 2.5 and
easydriver MPP

A long-lasting dose of freshness for your waste water tank: easydriver myfresh@tank

You simply want to relax when you're on holiday. Foul-smelling grey water that forms in the waste water tank after a few days can really spoil the holiday atmosphere.

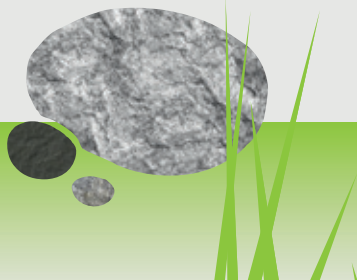

The easydriver **myfresh@tank** microbiological **waste water tank freshener** ensures greater freshness in your home on wheels. It permanently keeps the tank and pipes clean by effectively preventing the accumulation of dirt and grease deposits and neutralising odours.

It's easy to use: Just 10 ml **myfresh@tank** solution are required for every 10 litres of tank content. The biologically degradable tank freshener is poured directly into the wash basin and shower tray plug holes. The cleaning process is completed following a brief treatment time.

Its unique feature: The environmentally-friendly solution contains only natural ingredients that not only protect the pipes, but are also harmless to humans and the environment.

Item number 529-0571000

For a brilliant appearance: our myclean@home care kit

You have everything you need at hand to keep your vehicle in pristine condition with our myclean care kit.

Included in the myclean@home kit:

- Our **rubber care product** (1 x 100 ml) forms a highly elastic film of elastomers. Rubber seals at windows and doors stay elastic, moisture-repellent and simply smooth.
- The **acrylic glass cleaner** (1 x 250 ml) ensures sparkling clean glass surfaces without stress cracks.
- Our **intensive cleaner** (2 x 500 ml) for plastic surfaces drives dirt away for good, seals the surfaces and has an antistatic effect.
- 2 all purpose **cleaning cloths**.

Item number 529-05113505

All cleaning agents included in the set are also available individually!

Start your journey refreshed: myclean@tank

Our easydriver **myclean@tank** water system cleaner revives tired pipes and brings your fresh water tank, pumps, fittings and waste water tank back into top shape.

It's simple: Empty the fresh water tank, add 0.5 l of **myclean@tank** cleaning agent and then top up with water. Turn on all the water taps and water appliances. When the water flowing from the pipes is blue, turn everything off again.

Soak periods:

> 25 l tank – 1 hour	> 75 l tank – 3 hours
> 50 l tank – 2 hours	> 100 l tank – 4 hours

After soaking, turn on all taps and let the water run completely until the water is colourless again.

Item number 529-0501000

For clear all-round vision Auxiliary caravan towing mirror

To maintain a **clear overview of the traffic situation** you need auxiliary mirrors to cover your back. To keep your mobile travel companion and other road users **under optimum observation** a variety of appropriate mirrors is available to you.

Various versions
are available
to fit almost all
common car wing
mirrors.

In the UK this is a legal requirement.

Speed Fix Mirror

Flexible mounting for the best views

Our **clip-on Speed Fix Mirror** for caravans is characterised by its particularly aerodynamic design, which reduces vibrations to a minimum during your journey. The **innovative mounting system** with **patented swivel head** not only ensures the most flexible mounting options, but also guarantees particularly **easy and rapid fitting**. The unit can either be mounted at the top or bottom of the vehicle's wing mirror. The clip-on mirror fits almost all common wing mirrors.
